EXAMINER'S AMENDMENT

Terminal Disclaimer

1. The terminal disclaimer filed on 11/3/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Pat No. 6,476,349 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Information Disclosure Statement

2. The information disclosure statement filed 10/12/2001 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed.

The references having lines drawn through them have not been considered since a copy of these references could not be found. Copies of these IDS forms have previously been sent out with the first Office action, however, the missing references had not been lined out, and the pages with missing references had not been signed by the examiner.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Art Unit: 2854

Authorization for this examiner's amendment was given in a telephone interview with Paul Bowen on 1/12/2005. The application has been amended as follows:

In claim 44, line 1, the following language has been removed, "as set forth in claim 43,".

The above change has been made to properly write the claim in independent form as intended by applicant.

In claim 38, line 1, after "continuous", the following language has been inserted, --strip--.

The above change has been made to insert language accidentally left out by applicant.

Reasons For Allowance

Due to a document scanning error claim 48 had not been examined in the previous Office action. However, as noted below, it has been found allowable. Also, it has been noted that the Komatsu (JP-7-53099) reference was not listed under the Foreign Patent Documents section of the 892 Form of the last Office action. Therefore, it is has been added on the attached 892 Form.

4. The following is an examiner's statement of reasons for allowance:

Claim 48 has been allowed primarily for the combination of the marking unit that non-mechanically provides a strip with markings and the guiding device.

It is also noted that while applicant has not amended claim 32 exactly as indicated in the reasons for allowable subject matter in the previous Office action, the amendment that was submitted also puts the claim in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2854

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
